LIVE AND LET LIVE FOLKS.

Bale Ties for sale. Hudson, Hughes & Farnau.

There is Red Cross work for you to do at the Club room, tomorrow. Come and help.

We will buy or store your wheat. Highest market price. Hudson, Hughes & Farnau.

"Eat all you can and can all you can't," is the slogan of the Lancaster Canning Club.

Knitting parties have superseded bridge parties every one is doing their bit these days.

FOUND: A Cameo pin, several weeks ago. Owner can have same by calling on Harry D. Elmore.

STRAYED away, last week, a red boar. Any information will be appreciated. N. Miller.

Kermit Roosevelt, son of the former President, has received a cablegram containing an offer, which he has accepted, of a staff commission with the British army operating against the Turks in Asia Minor. He was granted his discharge from the Officers' Training camp and accompanied by his wife, left for Oyster Bay to join his father before sailing on Saturday for Spain.

One dollar will start an illiterate soldier on the highway to knowledge.

As this sum will purchase the equipment to teach one man, 30,000 people in Kentucky will be asked to give a dollar each to buy primers and other books for 30,000 men in the State, who, according to the recent registration, can neither read nor write.

Tobacco fields are in good shape, having been plowed and hoed the second time in most sections. Young plants are looking well and showers of the past two days will aid greatly in securing a rapid growth from now on. Little damage has been reported from worms thus far. Buyers are still offering 15 cents a pound for this year's crop. Few sales are reported.

Since the war began both England and France have been much exercised about the wearing of finery on the part of women, and there have been requests and in some cases laws tending to simplify fashion in those countries. No doubt public opinion has done even more in making women in those countries refrain from spending enormous sums of money on their clothes at a time when every bit of money or energy has been needed waging the war or relieving the sufferings and hardships of the men at the front. As yet we have made no effort to reduce our expenditures for clothes, but that time is not far distant.

The use of poisonous gases in modern warfare has become so much the rule, since the practice was inception by the Germans in April 1915, that a gasmask is invariably a part of the equipment of the man at the front. The American gas mask is said to combine the best features of the German and English, and to be absolutely proof against gases for a period of 10 hours. The breath is drawn through a mouth tube, passing through a cannister of chemicals which neutralize the gases. A clamp prevents the man from breathing through the nose, so that all the inhaled air must pass through the canister. Some of the trench masks are much simpler than this, notably one of the French types, which consists simply of a cloth saturated in chemicals drawn over the head, through which the soldier breathes, either with nose or mouth at will.

SPIRIT OF SEVEN- TY-SIX SHOWN IN LANCASTER.

WHEN NAMES ARE DRAWN FOR ARMY SERVICE.

GARRARD MUST FURNISH 104 MEN FROM LIST OF 208 FROM WHOM THEY ARE EXPECTED TO COME.

The suspense and uncertainty has ended about who will be called to the first Selective draft, and the spirit of Lancaster's young men could not be more patriotic. In a number of interviews to determine this spirit, the answer has been, "I am ready to go". On the cheek of very few Lancaster fathers of the future, will there be the blush of shame, when the question is asked what they contributed towards this world's battle for freedom. Chester Lewis evinced this splendid spirit when he read his number had been drawn and turned to Dr. Virgil Kincaid, who had already enlisted and said: "Don't meet you at the gates of Berlin". Ben Woods said "Lord pity the Germans, they have drawn me". Sam Davis (col) whose number is "258" and the first to be drawn is now in jail serving out a sentence for fighting. When told that he was the first drawn, said, "I am glad to go where I can fight without having to pay a fine and serve a jail sentence."

Garrard county must furnish 104 soldiers from the draft which was held last Friday in Washington and the men must respond to their country's call in the order in which they were drawn.

For the first call of the army it has been estimated that out of the double number required for any one county, the required quota will be obtained; that in Garrard county from the first 208 names which are published below, it has been estimated, that the required 104 men will be secured, after exemptions have been made.

In case over half the names drawn in the double quota in each county are thrown out, the next in order will be called until the necessary number is secured. There are 992 men ranging in ages from 21 to 31 years in Garrard county, all of which names were drawn last Friday and those whose names were first drawn out of the wheel, will be first called to service, provided they pass the examination. Beginning this week we are publishing the first 208 names and will continue to do for several weeks until the total 992 names are published.

Persons interested in these names should preserve the list and they can see just who will be the next in the order of the drawing.

The first 208 to be called from Gar-

rad county are as follows and shows the rotation in which they will be called:

1-258	Sam Davis	133-345	Jesse Goins
2-458	Walter Killion	134-163	Otto Bowling
3-854	Mike Simpson	135-556	Fred Mayfield
4-783	Everett L. Sebastian	136-154	Jas. J. Crutcher
5-837	Herbert Schoeler	137-51	Everett Barker
6-337	Henry M. Green	138-717	Frank Pollett
7-676	James Prewitt	139-39	Richard R. Anderson
8-275	Roy W. Estridge	140-193	Henry Crank
9-569	Willie Long	141-388	Jesse T. Hill
10-564	Frank Garven	142-773	Chas. Ray
11-945	Hollis Warren	143-608	Troy McCoy
12-596	James L. Marsee	144-406	Calloway C. Houndsell
13-636	Wm. V. Naylor	145-519	Hiram Land
14-548	Chester Lewis	146-25	Lewis F. Arnold
15-126	Dillard Blythe	147-392	Jas. Hicks
16-784	John Sherrow	148-889	Chas. Taylor

MONEY FOR TEACHERS.

Miss Jennie Higgins informs us that the seventh month salary is now ready for the teachers and they are asked to come in next Saturday for same.

FINE RESIDENCE AT AUCTION

The public sale of the handsome residence of Mr. W. B. Mason, which is to take place next Saturday afternoon should bring out numerous bidders, for the property is one of the most desirable in the city. Mr. Mason informs us that the sale will be an absolute one with no by-bidding and the purchaser will be fortunate to own such a magnificent home. Remember the day, next Saturday.

CANNING DEMONSTRATED

Miss Mollie Worthington, demonstrator from the agricultural department of State University, Tuesday afternoon at Hasceldens Hardware store gave a practical demonstration of canning beans and beets.

Her efforts are to bring to the people some of the results of the government's experiments and most approved methods of canning and evaporating fruit and vegetables. Miss Worthington emphasized the importance of the formation of a club in order that she might be brought in closer and more direct contact with the women and her work could reach the greatest number. A club was formed with Mrs. R. E. McRoberts chairman. About twenty-five joined at once and we hope the number will soon be doubled. Any one desiring to join can send their names to Mrs. McRoberts. There are no dues and no obligations, just come and learn something worth while for your own good.

Miss Worthington will meet with the club every two weeks and different vegetables will be canned and evaporated. Also questions answered, information from experienced housekeepers will be gratefully received by the members, as this club is for mutual helpfulness.

Deposit your wheat with us for flour. We handle only the best first patent flour. Hudson, Hughes & Farnau.

We sell the

STUDEBAKER AND OLD HICKORY Wagons

A full line of Hand Made Wagon Harness.

AT PREACHERSVILLE, KY.

Free Dinner. Music By An Excellent Band.

SATURDAY, JULY 28th, 1917

At 10:30 a. m. sharp.

I will sell at auction, at my farm on the Crab Orchard and Lancaster pike,

350 BLACK FACE EWES,

One to five years old, in lots of 25 and 50 or to suit the purchaser. Also

15 THOROUGHBRED ABERDEEN ANGUS COWS AND CALVES, 1 FINE 2-YEAR-OLD BULL.

Also several High-Grade Black Cattle and Two Short-yearling Bulls. These cattle are part of the T. L. Carpenter and R. L. Crow herds, are well known and pedigrees will be furnished on request.

This stock sale will immediately follow the big Auction Land and Lot Sale of my Preachersville farm.

J. M. CRESS, PREACHERSVILLE

Remember the Date and the Hour of these Two Big Sales, Saturday, July 28th, at 10:30 a. m.

Come and bring your friends. At this sale will be sold some of the very finest Black Cattle in Central Kentucky.

Qualified for Job.

"Know how to wash cars?" asked the garage boss. "Sure, I know," said the sedgy-looking applicant for work. "You clean everything but the license plates."

How to Teach a Dog.

Kindness, firmness and patience are necessary qualities in teaching a dog. Nothing can be done by cruelty, and if you lose your temper you will never teach him anything. It is very little use trying to teach an old dog. Begin when he is young and do not overfeed him. Also do not overfeed him, for most of the lessons have to be taught by a system of small rewards in the shape of tit-bits of food.

Indians Good Orchardists.

The American apple owes much to the care of the Indian farmers, for the Indian was an able pomologist. It was not unusual 150 years ago for Indian orchards to have 1,500 trees, which had been duly pruned and cultivated by the people we are prone to regard as nomadic savages. The peach and quince were also cultivated by them in later years. To the world the Indian introduced such fruits as the persimmon, the pawpaw, the pineapple and the Virginia strawberry.

A Wise Prayer.

Give us what is good, whether we pray for it or not; and avert from us the evil, even if we pray for it.—Prayer of Socrates.

Life of a Chain.

By twisting a hemp rope in and out of the links of a chain that runs over a pulley, not only is the noise suppressed but the life of the chain is lengthened 70 per cent.

To Remove Tobacco Stains.

A little denatured alcohol applied with a brush will quickly remove the dark brown tobacco stains from copper or brass ash trays.

Paper Pulp From Indian Grass.

Research in India has resulted in the discovery of several varieties of grass that grow prolifically and from which excellent paper pulp can be made.

DOLLARS to YOU

To See us before you sell your Wheat, Rye, Barley, Oats or Corn.
To Talk with us on the feeding of the fall shoats for market.
To Let us figure your lumber, shingle and building bills before you buy.
To Look over our line of Furniture and Stoves before you buy.
To Let us know your wants in Field seeds for fall Sowing.
To Remember us when in need of anything in our line.

Hervey & Woods
Paint Lick, Kentucky.

DON'T BLAME THE CHILD.

Don't scold your children for lack of control over the kidney secretions. It is not always the children's fault—in many cases it means weak kidneys and can be readily righted. Read this Lancaster mother's advice.

Mrs. H. G. Crutchfield, Stanford Ave., Lancaster, says: "My little boy was greatly trouble with weak kidneys and had no control over their action, which caused no end of annoyance, and trouble. The child looked badly. I got a box of Doan's Kidney Pills and began giving them to him according to directions. They promptly cured him." (Statement given December 20, 1911.)

A PERMANENT CURE.

On November 17, 1916, Mrs. Crutchfield said: "The cure Doan's Kidney Pills made for one of my children has been a lasting one."

60c, at all dealers. Foster-Milburn Co., Mfgs., Buffalo, N. Y.

DAIRY WISDOM.

Do not try to speed up the separator by guess.

Unless every cross in breeding stands for improvement in the herd it shows that there is something wrong.

If a separator is not worth cleaning after being used it is not worth having—not once a day or week, but each time.

Never allow a cow to be excited by fast driving, abuse or unnecessary disturbance.

Clean the entire body of the cow daily. Hair in the region of the udder should be kept short by clipping.

PASTURE FOR CALVES.

Little Gained by Turning Youngsters Out Before Six Months Old.

A calf four months old is a little too young to turn out to pasture unless it is possible to provide it with skim milk, says Hoard's Dairymen. We prefer to have a calf six months old, and seven months is better, before turning it out to grass. If it is possible to provide pasture near the barn where skim milk may be fed daily to the calf then we consider it a good practice to turn the four-months-old calf to pasture in the spring.

We prefer to keep calves born in the spring in the barn rather than out to pasture because of the hot weather and flies. A calf will not consume enough grass to provide ample nutrition for growth for the first four or five months. Further, we think it a good practice to feed a calf skim milk for six or seven months and longer if there is an abundance of it. The calf ought to do very well on a Jersey nurse cow, but we consider butter fat too expensive to feed to a calf.

We are inclined to believe that a calf will do fully as well on skim milk as on whole milk after it is four or five weeks old. At six or seven months of age it may not show as sleek and smooth a coat as when fed on whole milk, but when a year old we believe the skim milk calf will be fully as vigorous and growthy as the one raised on whole milk. If calves five and six months old can be placed upon a good pasture supplemented with a little whole grain, like oats and corn, and some skim milk they will make very satisfactory growths.

We do not believe there is much if any danger of calves bloat by grazing upon peas and wheat. There is danger if they are permitted to graze upon clover or alfalfa. Care should be taken at all times to supply the calves with a liberal amount of water.

HANDS, ARMS, LIMBS ASLEEP

And Was Run-Down, Weak and Nervous, Says Florida Lady.

Five Bottles of Cardui Made Her Well.

Kathleen, Fla.—Mrs. Dallas Prine, of this place, says: "After the birth of my last child, I got very much run-down and weakened, so much that I could hardly do anything at all. I was so awfully nervous that I could scarcely endure the least noise. My condition was getting worse all the time...

I knew I must have some relief or I would soon be in the bed and in a serious condition for I felt so badly and was so nervous and weak I could hardly live. My husband asked Dr. ——about my taking Cardui. He said, 'It's a good medicine, and good for that trouble', so he got me 5 bottles... After about the second bottle I felt greatly improved... before taking it my limbs and hands and arms would go to sleep. After taking it, however, this poor circulation disappeared. My strength came back to me and I was soon on the road to health. After the use of about 5 bottles, I could do all my house-work and attend to my six children besides."

You can feel safe in giving Cardui a thorough trial for your troubles. It contains no harmful or habit-forming drugs, but is composed of mild, vegetable, medicinal ingredients with no bad after-effects. Thousands of women have voluntarily written, telling of the good Cardui has done them. It should help you, too. Try it.

1917-ANNOUNCEMENT-1917

OF
SWINEBROAD THE REAL ESTATE MAN.

[Successors to Hughes & Swinebroad]

LANCASTER, KENTUCKY.

**Headquarters for Real Estate
IN
"THE LAND OF NOW"**

EXPERIENCE AND EFFICIENCY COUNT IN ALL BUSINESS.

Our records for the past eight years show sales of more than 13,500 acres of land, besides a large amount of town and city property and stocks of merchandise, amounting to more than \$1,350,000.00 and this business was done to the entire satisfaction of more than 500 clients and customers and they are my references for "fair dealing."

From my experience in the business I know how, when, where and what to advertise.

To the one who has property to sell—farm lands, city property, dwellings lots or business property, merchandise or any real estate proposition, I solicit your business, believing I can handle it to your entire satisfaction.

List your farm or other property with me now. I now have on hand a long list of parties who are going to buy something somewhere and your property may be just what I am looking for.

To the one who wants to invest, I solicit your patronage as I know values and know that when you close a deal through me you will get "value received" for your money.

I have on hand for sale at all times a Large Number of Farms, Dwellings City Property not in the advertised list, as my list of property is constantly changing, by sales, expirations renewals, listing new properties and some of my best properties are not advertised at the request of the owners.

If you are a non-resident of Garrard County, write me and I will tell you all about our County, its fertile soil, its products, market facilities, good roads, schools and churches, of Lancaster and its business, its people and its growth.

The following is just a few of the properties I have on hand for sale now.

FARMS.

A farm of 150 acres, partly rolling land, good improvements, on pike with about 100 acres of cliff and grazing land thrown in.

A fertile farm of 184 acres with splendid improvements, land lies well and is on pike.

A small farm of 43 acres, 3½ miles from town, on pike, new 7 room dwelling and new barn, good land lies well.

A farm of 60 acres, on pike 2½ miles from town, land rolling, very fertile, mostly in grass, large tobacco barn 4 room house.

A farm of 84½ acres, extra tobacco and hemp land, rolling, 2 large barns, splendid dwelling, land well fenced and well watered tenant house and other out buildings.

A farm of 198½ acres of rich land, part level and part rolling, fine dwelling of 8 rooms, halls, cellar etc, 2 acre orchard, 2½ miles from town on pike. This one a bargain.

56 acres of very fertile land on pike 1 mile from town, good dwelling and large barn and other out-buildings, fine orchard and the land priced right.

A farm of 128 acres, 4 miles from town, on pike, land partly rolling splendid improvements.

A farm of 110 acres of fine land well improved, on pike accessible to market of three county seats, land lies well.

A small farm of 18 acres, one-fourth mile from pike, with good improvements.

A farm of 180 acres, partly rolling, very fertile, splendid improvements, large 9 room brick dwelling with front lawn to pike, easy terms, 65 acres in cultivation, balance in grass.

A farm of 201 acres of level land, 1 mile from town, fronting on two pikes, susceptible of division into smaller farms, dandy building sites.

A farm of 16½ acres, on pike, all in blue grass, large barn, fine building site for dwelling, orchard, land ready for tobacco and hemp, close to school and churches, also 5 miles from Lancaster.

A farm of 24.48 acres of nearly level land, 5 room dwelling, large dwelling, large orchard, land fertile, on pike close to schools and churches. This is "dandy" little home.

A farm of 40 acres, high class land, on pike, on pike, 5 miles from Stanford an ideal location. Will be sold worth the money and on easy terms.

A farm of 151 acres on pike, 6½ miles from Danville and 5 miles from Lancaster, right on pike, two sets of improvements, farm lies in nearly a square and can be divided, with fronts on pike. In splendid neighborhood and right at small village with school and churches.

FOR RENT:—A farm of 280 acres, well located, well improved and nearly all in grass and a part of the grass ready for the plow. Will be rented for the year 1918.

A small farm of 14½ acres, on pike 1 mile from Lancaster, splendid brick residence, large barn and other out buildings, well watered. Buy a home close to the best town in Central Kentucky.

A farm of 500 acres—LISTEN to this:—THE BEST BARGAIN in Kentucky. Located on two pikes, near the famous Camp Dick Robinson section of Garrard County. Part of this land is virgin soil, ready for hemp and tobacco. 300 acres is nearly level in high state of cultivation. 4 dwellings on the farm, the main dwelling is an ideal Kentucky Country home. 2 large new tobacco barns, stock barns and other out buildings, well watered and well fenced. If the entire farm is too much for you, will sell you a 275 acre tract, or 145 acre tract or 85 acre tract. Priced right and on easy terms.

A farm of 117 acres of rolling land, new dwelling, barn &c, well watered 2½ miles from town, will suit some one who does not care to be right on the pike. Will sell at a bargain if bought at once.

CITY PROPERTY:

New modern dwelling of 8 rooms, 2 halls, cellar, bath rooms, modern improvements, furnace heated, electric lights, water works, small modern bath and 4 acres of land.

A dwelling of 6 rooms and out buildings and 4 acres of land. Another, new modern dwelling of 10 rooms with all modern conveniences. A number of other dwellings and building lots.

JULY CLEARANCE SALE

CASH PRICES MEN'S, YOUNG MEN'S AND BOYS SUITS **CASH PRICES**

Why reduced prices on clothes when Woolens are on the rise? "The Story in a Nut Shell"

You've probably heard that woolen pieces are advancing, so you naturally ask--If that is so, how can these stylish, all-wool clothes be sold for less than regular prices? Each year at the end of the regular selling seasons we find a number of garments still on hand; they were bought to sell during that season, so we make it a point of selling them in order to make room for new goods, and we reduce prices to clean these suits in a hurry.

Because Woolens are advancing so rapidly these clothes are worth more now than they were a few months ago; they'll be worth more next year--but we can't hold them over. Following our iron-clad rule of not carrying goods from one season to another, we are going to close them out at the following cut prices:

\$10.00 Mens Suits now	\$ 8.75	\$18.00 Mens Suits now	\$14.25	\$ 5.00 Boys Knee Suits now	\$ 3.75
12.50 Mens Suits now	9.75	20.00 Mens Suits now	16.25	6.50 Boys Knee Suits now	4.25
15.00 Mens Suits now	11.75	22.50 Mens Suits now	17.25	7.50 Boys Knee Suits now	5.50*
17.50 Mens Suits now	13.75	25.00 Mens Suits now	19.25	10.00 Boys Knee Suits now	7.75

Make your choice while choosing is good.

JAS. W. SMITH

House of Quality.

RED BLOOD AMERICANISM IS COMING TO THE FRONT

Right now this Country is calling for men of stout hearts and sound bodies. It needs them to keep Old Glory triumphant and unsullied in the air.

The exigency now confronting us emphasizes, as nothing else could do, the importance of good health, both as an individual and national asset.

It gives point to the suggestion, often emanating from this office, that everybody should guard their health as a priceless possession. When you find yourself running down and not exactly keyed up to the fighting pitch, as is the case with everybody at times. You ought to come to Nature's relief and take a course of

COM-CEL-SAR

[Legally guaranteed to satisfy you, or money back]

If you'll do that, you will not experience the discomfiture of being sent back home for lack of red blood when you answer the call of the colors.

TOWN PROPERTY AT PUBLIC SALE.

Being compelled to be away from home on business and having only two in family, for their convenience, I have concluded to move to my smaller place nearer town, thereby deciding to sell my Suburban Home "GLEN GABLES" where I now live on Lexington street in the city of Lancaster, Ky. I will offer for sale, on the premises, to the highest bidder

Saturday, July 28th, 1917

at 3 o'clock P. M. the said property containing about eight acres of rich land, all in grass except garden and orchard. Five hundred feet of this property is fronting on Lexington street and is capable of subdivision in building lots, fronting east. This part of town is building up rapidly, four new houses having been erected during the past year beyond this property and two more new ones are under construction.

The house on this property, with large shady lawn in front, away from dust and noise, is 2 story's high and contains 11 rooms, hall two porches, and cellar and is considered one of the best built and arranged storm sheeted frame houses in Garrard county. It is easily heated, being warm in winter and cool in summer.

On this property is a servant house in back yard; a good stable with box stalls and wagon shed attached; a never failing bearing apple orchard and spring house. It is one of the best watered places for its size in the state. It has two cisterns, one at house and one large one at stable and a good pond in corner of pasture, fed by a spring that has never been known to go dry, and beside all this, which is unnecessary, I have city water for bath room and kitchen.

This property is only a short distance and on the same side of the street as the Lancaster Graded school and is excellently located for small children going to and from school.

THIS PLACE WAS FORMERLY KNOWN AS THE WALDEN PLACE.

Property of this character is seldom ever offered at public sale and now is the opportunity of a life time for some one who wishes to invest in one of the most delightful homes in Lancaster.

I will offer same in two or more tracts and then as a whole and will accept bid or bids that bring the most money. There will be no by-bidding. Possession given December 1st, 1917.

Terms made known on day of sale. I will be glad to show this property to any person before day of sale. Phone No 1.

W. B. MASON

COL. I. M. DUNN, Auctioneer.

P. S.—At the same time and place I will sell some furniture belonging to my mother, Mrs. E. J. Mason, deceased, consisting of one parlor set, one Rosewood square piano, one walnut wardrobe and other things. W. B. M.

TAKEING ATHARTICS EVERY DAY FOR WDRKS DON'T CURE STOMACH TROUBL

They do not eliminate the poisonous Bile Accretions from the System, so declares a leading Chicago Stomach Specialist. Why Do Rifle Barrels Burst?
Although shotguns and rifles are tested with loads which give pressures far above those produced by ordinary ammunition, swollen or burst gun barrels are not uncommon. The cause is either attributed to defective ammunition or to an obstruction in the bore, such as snow or dirt. The pressure of the powder gases themselves are not to blame, for investigation has proved that the swelling or rupture is caused by the compression of the air between the bullet and the obstruction.—Popular Science Monthly.

WHO IS HOOVER?

In considering the recommendations of Herbert C. Hoover for food control and the facts with which he backs up his arguments, it is well to ask, "Who is this man Hoover?" Herbert C. Hoover was a mining engineer enjoying an annual income of \$150,000 when the war broke out. He undertook the work of Belgian relief and in that magnificent achievement, one of the most human in history, he received no pay for his services, nor did his assistants.

Mr. Hoover even paid the rent of the house occupied in Brussels by the commission. In Washington Mr. Hoover again is working without pay, and so are his assistants. Perhaps his willingness to put his great administrative ability at the disposal of his country and not receive the mercenary emoluments thereof, has caused Mr. Hoover to be misunderstood in certain quarters.

PATRIOTIC PARENTS.

There are few parents in the country who have contributed their quota of soldiers to the army more liberally, or who have a right to be prouder of the advancements made by their sons than Hon. O. H. Waddle and wife. Mr. Waddle has six sons, and out of that number three are doing service in the struggle for peace on earth. A. B. Waddle, has received his commission to enter the army as a dentist and will continue the practice of his profession among the soldiers who need the services of a trained and skilled practitioner of dentistry. B. L. Waddle is in training at Ft. Benjamin Harrison, while S. A. Waddle has been commissioned a Lieutenant. The remaining three sons are in Somerset, E. M., R. B. and William. Mr. Waddle is proud of the fact that when the call of his country was made that he could send representatives of his family to the front.—Somerset News.

Flour in sacks or barrels. It is guaranteed to please you or money back, Hudson, Hughes & Farnau.

BALLOTS BEING PRINTED.

This office is printing this week the ballots to be used in the coming primary on August 4th. The Republicans can vote in only four of the precincts of the county, namely, Buckeye, Walkers school house, Paint Lick and Union and then only for the magistrates running in those precincts. No Republican ballots will be printed for the other precincts as the nominee's have no opposition in these.

A CARD WITH THE BARK ON IT.

(Interior Journal)

The card of Mr. J. Hogan Ballard, the popular young candidate for the Legislature in Garrard, is one of the best responses to the unsought efforts of Dr. Alexander and his side partner, Rodmon Keenon, that has been published. He does not think, and says so in no uncertain way, that the people need them to say who shall represent them in the legislature and in other capacities and when they do they can save money by having a legislative proxy. Mr. Ballard's answer to Mr. Keenon when offered him the regulation thirty pieces of silver to help him betray the Democratic party, will rank almost with the Savior's answer to the devil: Get thee behind me, Satan. Of

Mr. Ballard's Democracy and temperance proclivities there can be no doubt and that he is able to defend his position as a supporter of the Democratic administration his card is ample proof. If Dr. Alexander and his henchmen do not take the rather strong hint to go away back and sit down they had better, as the true Democrats are on to their game and are resenting their unsought services.

On two occasions during the term of office of Judge Ford his court submitted to the vote of the people whether bonds should be issued to repair the Court House. Whether for lack of confidence in the Judge or his court, or otherwise, we do not know, the voters refused to authorize the issue of these bonds. In 1914 my fiscal court submitted to a vote of the people whether there should be issued fifteen thousand dollars of bonds to repair the Court House, and by a decisive majority it was ordered that these bonds should be issued. The will of the people was carried out and the work which they desired has been well done. The interest on these bonds has all been paid when due. I had no more to do with the voting of these bonds than any other citizen or voter of the County; I am not responsible for the bonded indebtedness of the County nor is my administration. We only carried out the will of the people in issuing these bonds and performing the work for which they were issued. The voters, therefore, will not be deceived by an effort made on the part of my opponent in referring to the bonded indebtedness of the County to cover up the mistake, failure and wrong of his administration and his illegal acts in plunging the County so deeply and recklessly in debt. They will remember that the County, by the vote of the people ordered thirty-three thousand dollars of bonds in 1899 to purchase the turnpikes and remove the toll gates, and in 1915, fifteen thousand dollars of bonds to remodel the Court House.

There are many things that I wanted to do and would have done had Judge Ford not left the County so burdened with debt on the account of which we were prevented from doing for the lack of funds.

If my official and private conduct during my four years administration meets with your approval I shall appreciate your endorsement and ask you to support me on August 4th.

Respectfully,
C. A. Arnold.

PLANS AND SPECIFICATIONS

Postmaster E. P. Brown has received recently the plans and specifications for the new post office building and they are very minute in every detail, even to the size and quality of screws that are to go in the door hinges. The bids will be received up to August 15th, when they will be opened and the contract let. Indications are that dirt will be broken for this handsome building by the early fall.

Has Germany's forty years of preparation to dominate the world with her unspeakable "Kultur" succeeded, in aught save engulfing the world in a bloody Armageddon? Did not the Canadian troops, with six months' training and the Dublin Fusiliers, who were in camp but a few weeks, beat back the picked Russian Guards, along the bloody banks of the Yser in April, 1915? Was it not the young men of France who had recently left school, and farm and forge, inspired by the watchwords: "They shall not pass," who stopped the rushing Huns of the Crown Prince along the Meuse, and made the hills and forts around Verdun immortal? Does any intelligent man doubt that Pershing's troops, taken man for man are the equal, yes the superior, of any German Uhlan or Prussian Guard, who ever charged on the Somme, or was put to rout on Nivelle Ridge by citizen soldiers of Britain, under Sir John Haig?

ELECTION OFFICERS NAMES.

The board of Election Commissioners, composed of G. T. Ballard Jr., James Clark and R. H. Batson met yesterday morning and selected the election officers who are to serve in the primary Aug. 4th, from the names submitted by the various candidates. They are as follows:

Court House No. 1.

W. B. Moss and Cleve Bourne, Judges, L. L. Walker, Sheriff, J. M. Farra, clerk

East Park No. 2.

Walkers School House No. 7.

J. H. Posey, Forest Stapp, Judges, Alex Layton, Sheriff, Joe Wheeler, clk.

Paint Lick No. 8.

C. B. Ledford, E. L. Woods, Judges, R. C. Boain, Sheriff, Boyd Wyng, Clerk.

Union No. 9.

J. M. McQuerry, Jack Edwards, Judges, Ebb Scott, Sheriff, E. E. Estridge, clk.

Crimson or Red Clover, Timothy seed Kentucky Blue Grass, Buckwheat, Cow Peas, for sale by Hudson, Hughes & Farnau.

LOW RATES TO LEXINGTON FAIR.

Special low rates have been granted on account of the Blue Grass Fair which will be held in Lexington August 6-11. A great sacred concert by one of the most famous bands in America will be given on the previous evening and the Railroad rate from Lancaster to Lexington is effective the Saturday before, August 4th. Tickets sold to Lexington for that occasion are good returning Tuesday August 14th. The rate from Lancaster to Lexington and return is \$1.80. The Blue Grass Fair has re-arranged and increased its premiums this year for horses, mules, sheep, swine and is offering nearly \$1000.00 in premiums for the best display of vegetables.

Arrangements have been perfected by the manufacturer of an air ship, which seems to be destined to win the war with Germany, to make the initial flight of the first air ship which they are constructing at the Blue Grass Fair. Eighteen shows are embraced in the carnival and from the time the gates open at 10 in the morning until the close at 11 in the evening, amusement and entertainment is promised. Indications are that the attendance from Garrard County will be unusually large this year.

CANT VOLUNTEER AFTER THE CALL HAS BEEN POSTED

WASHINGTON, July 23.—Recruits under the selective draft law are not eligible for voluntary enlistment in the regular army or the National Guard after their names have been posted by local exemption boards as summoned for examination.

Brigadier General Crowder, Provost Marshal General, promulgated this ruling to make definite the status of men on the registration lists who now may desire to join the regulars or the National Guard. The ruling is supplementary to instructions sent to recruiting officers by Adjutant General McCain as follows:

"After a registered person has been called for military service by his local board and directed to appear for physical examinations, he ceases to be eligible for voluntary enlistment."

The ruling of General Crowder was necessary in order to establish definitely the time when a registered man was to be considered as failing within this prohibition. General Crowder held that posting of the name of a registrant by the local board at its headquarters constituted notification to the registrant that he was called for examination, and thus set the period when he would be no longer eligible for voluntary service. Prior to that time, even though his name may be among those who will be called in the first quota in any district, a registrant may be accepted for the regular service as a volunteer.

APPEAL BOARDS FOR ENTIRE STATE HAVE BEEN NAMED

Kentucky Divided Into Three Districts In Matter of Exemption

WASHINGTON, July 23.—The appointment of the three Kentucky Appeal Exemption Boards has been approved by the War Department. They are as follows:

Eastern District—E. S. Helburn, Middletown; Watt M. Pritchard, Ashland; J. H. Allington, Covington; Dr. C. A. Maggard, Wayland.

Western District, (Eastern division)—Dr. C. Z. Aud, Cecilia; Col. Andrew Cowan, Louisville; J. P. Averitt, Bradfordville; Peter Campbell, Louisville, and Stanley Spindel, Louisville.

Western District, (Western division)—Dr. John H. Blackburn, Bowling Green; S. L. Dodd, Hickman; D. C. Stimson, Owensboro; W. D. Duncan, Central City, and W. H. Yost, Madisonville.

These district boards, in addition to deciding all appeals from the decisions of the local exemption boards with respect to exemptions on physical grounds or because of dependents of men selected, will be the only boards authorized to pass upon exemptions for industrial or agricultural reason.

These district boards will have no function until the local boards in their territory have begun to certify to them the men found fit for military duty physically and not burdened with dependents. The higher boards are courts of appeal, either for the individual or for the government against the findings of the local boards.

The whole question of industrial exemption, however, has been turned over directly to these district boards, which have original jurisdiction in all cases of this kind. They will be sole judges of any registered man's field of greatest service to the nation, whether in the army or in the munition factory, business house or other civilian occupation in which he is engaged.

BLUE GRASS FAIR
LEXINGTON, KENTUCKY.

August 6th to 11th

Don't Buy a Wagon Until You Have Seen the Columbus

Before you decide on any wagon, examine the Columbus. Strongly built of the best possible material the Columbus wagon gives the most satisfactory service for the longest period of years. There is no secret in the noted long life of the Columbus wagon. It is the result of the methods employed in construction. There is no wood in this wagon which has not been air-dried under shelter from one to two years.

The axles and the spokes of the wheels are hickory; the boulders, bolsters and sandboards are oak, and the bottom of the box is straight grained flawless pine. These are just a few examples of the care which is taken to make this wagon as reliable as possible. The result is that the Columbus wagon is unbeatable in reliability and endurance. Come in and examine it for yourself. We know you will be pleased.

Gossip About People

A Brief Mention of the Comings and Goings by Those We Are Interested In

Mrs. Joanna Ball is in Stanford with her daughter, Mrs. Bohon Campbell.

Mrs. Carlton Ekin and little daughter, Emily Ann, are visiting at Liberty.

Mrs. S. H. Burke of Birmingham is the guest of Miss Annie Belle Burnside

Mrs. Joe Francis and Miss Allie Arnold were visitors in Stanford, Tuesday.

Mr. and Mrs. Ira Holtzelaw left Wednesday for a stay at Hot Springs, Ark.

Miss S. H. Burke of Birmingham, Ala., is the guest of Miss Annie Belle Burnside.

Miss Mattingly of Lebanon is here the guest of her sister, Mrs. F. L. Browning.

Mrs. W. R. Gott, and children, of Richmond, are visiting her sister, Mrs. L. N. Miller.

Miss Sue Shelby Mason has returned from a delightful trip of three weeks in the East.

Miss Lucy Doty of Lexington is visiting her father, Mr. Jesse Doty on Maple avenue.

Miss Katherine Haydon of Birchville, Indiana is the guest of Miss Anna Katherine Arnold.

Miss Polly Reynolds, one of Dicker-son's popular clerks, is visiting relatives at Wilder.

Mrs. J. V. Arnold of Birmingham, Ala., is the guest of her parents Mr. and Mrs. J. G. Burnsides.

Mr. and Mrs. Guy Fish of Los Angeles, California, were week-end guests of Mr. and Mrs. Joe Francis.

Miss Lillie Dale Grant, of Norfolk, Va., is the guest of Mrs. Fisher Her-ning, near Preachersville.

Miss Edith Moore has been spending the week with Miss Margaret Herring at her beautiful country home.

Mrs. Nackie McGrath has returned from a short visit to Sharpsburg and other Central Kentucky towns.

Mr. and Mrs. Frank Phillips, of Stan-ford, spent last Sunday with the lat-ter's mother, Mrs. Emma Daniels.

Mrs. R. D. Blanton and pretty little daughter, of Eminence, are with her parents, Mr. and Mrs. J. W. Elmore.

Mrs. May Hughes Noland entertained at a family six o'clock dinner in honor of Mrs. Orie Huffman of Louisville.

Mrs. Joe A. Elsener and children of Charleston, West Va., are here visiting her parents, Mr. and Mrs. N. Miller.

Misses Mamie Stormes Dunn and Florence Johnson, have returned from a visit to Lexington and Georgetown.

Mrs. Sam Haselden and Mrs. Henley Bastin spent last Wednesday and Thursday in Nicholasville with relatives.

Miss Mollie Worthington of Danville gave a practical demonstration of canning at Haseldens Hardware Store Tuesday.

Mrs. J. S. Johnson, and children, and sister, Miss Peachie Mae Sanders, visited Mrs. J. W. Bourne in Danville, last week.

Miss Fannie Turley has returned to her home near Winchester after a week's visit at the home of Miss Clara Francis Palmer.

Mrs. H. E. Garrett, (nee Miss Fay Robson) of Louisville, will arrive Friday and be the charming guest of Miss Kathleen Walters.

Mr. and Mrs. T. C. Walls and children motored through from their home in Portsmouth, Ohio, and are visiting relatives in the city and county.

Misses Bernice Spaulding and Lucy Boldrick of Lebanon, who are now at C. O. Springs, will spend the week-end with Miss Annie Margaret Ekin.

Miss Clara Frances Palmer entered her Sunday School class-mates, last Wednesday evening at her home to meet her guest, Miss Fannie Turley, of Clark Co.

Miss Margaret Smith, oldest daughter of Mr. Jas. L. Smith, formerly of this place, but now of Hamilton, Ohio, has been visiting relatives and friends in the county.

Mr. L. E. King, formerly of this coun-ty but now a resident of the state of Washington, has been a guest for the past week of his brother, Mr. Tom King near Paint Lick.

Mrs. W. S. Elkin, of Atlanta, who has been visiting her nieces, the Misses Warren, has returned to her home in Atlanta. Miss Jennie Warren accompa-nied her for a visit. Returning, she will visit friends in Chattanooga. —Interior Journal.

The families Mr. Luther Gibbs and Mr. Jim Burnside together with the Haydens of Fayette, are enjoying an outing to High Bridge today, the trip being complimentary to Mr. and Mrs. John Burnside, of Texas.

MRS. WEST SUSTAINS PAINFUL INJURIES.

Mrs. W. T. West while shopping in Danville, last Thursday, stepped into the store of the Winslow Jewelry Co. and becoming interested in a watch, the face of which could be seen in the dark, was told to go into a dark hall-way to make closer inspection, she opened the wrong door and fell down a stairway the distance of eight feet.

She was unconscious some time and sustained very painful injuries, her collar bone was broken, her hand sprained, a deep cut on her face and numerous bruises. It was at first thought she had received internal injuries but we are glad to state such is not the case. While her friends deplore the painful accident, they feel thankful it was no worse as her escape from death seemed miraculous. She was taken at once to the Danville hospital and her husband and daughter notified, and remained with her until Wednesday afternoon, when she was moved home.

JAMES B. CARPENTER.

James Butler Carpenter was born in Green County Illinois, July 28th, 1869 and died at Wichita, Kansas, Saturday evening July 14th, 1917, at the age of 47 years, 11 months and 14 days.

He moved from Illinois to Kansas with his father's family in October 1870, locating on a farm near El Dorado Kansas. On this farm, where all the hardships of a newly settled country were experienced, Jim spent his boyhood days. At the opening of the Cherokee Strip he settled on a farm 5 miles west of Ceres, Oklahoma.

On Sunday, July 31st 1898 he was united in marriage to Miss Cora E. Blair, second daughter of Mr. and Mrs. Stephen Blair of near Ceres Okla. To this union was born one child, Mildred Carpenter, who with her mother survive.

At the opening of the townsite of Red Rock he engaged in the hardware business and later moved on the farm adjoining the town on the west, where he resided until his death.

The father and six brothers are left to mourn the death of a loving brother and son, John M. Carpenter the father

spared of each year in Florida and Kentucky. The brothers are: A. Reid, of El Dorado, Kans., Samuel D., of Red Rock, Okla., William D., of Broken Arrow, Okla., Dick, of Red Rock, Okla., Ollie R., of Lancaster, Kentucky, and Logan, of Red Rock, Okla.

Four sisters and the mother preceded Jim to the Great Beyond, his mother having passed away Feb. 14 1902 at the age of 61 years and 12 days. She was a constant member of the Christian church for 43 years. Jim was a member of the Baptist church 29 years and a faithful deacon for 15 years.

During the last few days he remained with us, when the darkening shadows grew thicker and closer around us, what a grand thing to know he could call for the dear Book, the Book of Books, and have read aloud to him the chapter from which I take my text, at his request. What a blessed assurance and what an example for the relatives and friends left behind when on leaving the home to which he was never to enter in the flesh again to call those near him to his bedside and ask if it was God's will that he might be spared to his friends and family. He leaves this message to them, "The Lord is my Shepherd I shall not want".

He was a strict observer of the Sabbath and never forgot before partaking of a meal to ask for the Lord's blessing and to thank Him for the light of another day."

The above article was taken from The Red Rock (Okla.) Record and will be of interest to many here, as Mr. Carpenter is a brother of Mr. O. R. Carpenter, and a nephew of Mr. J. O. Reid of this city, and visited here several years ago.

Mr. Reid is a banker at Lancaster, He, too, was reared near Neatsville, this county, being a son of Maj. Ferdinand Rigney, who died many years ago.

During his life time he was prominent in the affairs of the end of Adair. Mr. Rigney is an inspector in the Chapter work of Masonry, and he was here to meet the R. A. M., look over the books etc, and also to shake hands with many friends he knew in the long ago. His visit to Columbia was very much appreciated. Like Mr. Sweeney, he spent many days in Adair, a county that will always have a warm spot in his heart. —Adair Co. News;

YOUNG MEN AND WOMEN WANTED

Four hundred and eighty three young men, from sixteen to twenty one years of age (not subject to conscription) and two hundred and thirty-five women are wanted to take the training necessary to qualify them for positions in banks, mercantile houses, railroad offices, etc.—positions made vacant by the first and second drafts of bookkeepers and stenographers.

YOUR MONEY BACK

Young men who qualify at Draughon's for Shorthand work with the Government and are drafted for Government service will get back every cent of the money that they pay for tuition if they are not given office work, instead of trench work, with the Government.

We have on file letters urging us to train, as fast as possible, young men and women for these positions, which pay from NINE HUNDRED to TWELVE HUNDRED dollars a year to begin on. By thorough Draughon methods—the methods that business men endorse—one can learn Bookkeeping & Shorthand by mail as well as at college, and can learn by mail at one sixth the cost of learning at college. Write to Draughon's Practical Business College, Nashville, Tenn.

OATS FOR DAIRY COWS.

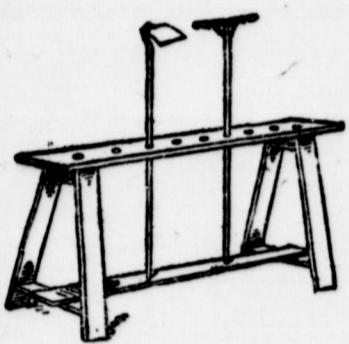

Excellent Feed For Milk Production
When Combined With Grains.

Oats is an excellent feed for milk
cows. Its price usually prohibits its
extensive use in the dairy ration, how-
ever, says Hoard's Dairymen. It con-
tains more protein than corn, barley or
wheat; about the same fat content as
corn and considerably more than
barley or wheat, but it is a good bit lower
in carbohydrates than the other three
grains. Experimentally in a ration in
which there was no protein deficit
ground oats has been equal to wheat
bran, and with a basal ration of 3.2
pounds bran and 10.4 pounds mixed
hay 4.5 pounds oats were equal to the
same weight of cornmeal.

Oats serve its best use in a dairy ra-
tion when combined with other concen-
trates; also heavy producing cows will
pay in milk production for grinding or
crushing oats. Cows giving small quanti-
ties of milk may not. The oats should
be cleaned as thoroughly as possible of
coal cinders. We would expect, how-
ever, that no ill effects from small
amounts left in would be noticed.

Handy Garden Rack.

To have the tools within reach makes
for economy of time in putting in odd
moments in the garden. Tools have a
way of scattering and hiding when
wanted most. A tool rack as illus-
trated

RACK FOR TOOLS.

ed, placed in a handy place, keeps the
tools together. Such a rack is merely
a modification of a carpenter's saw-
horse—holes bored through the top
to hold the handles of tools and a
board across the bottom for the han-
dles to rest on.

Fly Repellent For Cows.

Spray mixtures may add to the com-
fort of a cow by keeping off numerous
flies. Several of these compounds may

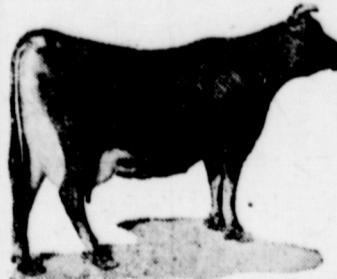

DAIRYING AND
SOIL CULTURE

GREAT BUTTERMAKER.

Jersey That Produced Over a Ton in
Two Successive Lactations.

Dosoris Park Lily 235788 now
shares with Sophie XIX, of Hood farm
the distinction of having made two
consecutive years' records of over 900
pounds of butter fat. Her first record
was completed in 1915, when she at-
tracted considerable attention by set-
ting the mark for Class AA production,
in addition to winning the gold medal
for the best Jersey record made in that
year.

Lily started on her second test nine-
ty-five days after completion of her

The cow herewith pictured is Do-
soris Park Lily, a record making
Jersey, with two consecutive rec-
ords of over 900 pounds of butter
fat.

first record. The exact figures of both
tests are given here:

Pounds	Milk.	Fat.	Age
16,731.4	857.43	5 years 11 months	
15,504.6	911.92	7 years 2 months	

These figures combined give her a total
production record of 1,860.35
pounds of butter fat or 2,336.7 pounds
of 80 per cent butter in two successive
lactations, an achievement which has
earned a name for her as one of the
great cows of the Jersey breed.

Dosoris Park Lily was sired by Do-
soris Park Golden Lad 73788 and is out
of Moy's Romp 163818. She was
bred, owned and tested by the estate
of Charles Pratt, Glen Cote, N. Y.

POTATO BUG CONTROL.

Spraying or Dusting With Paris Green
Will Kill the Insects.

The old time custom of picking potato
bugs with a paddle and bucket has
given way on large areas to spraying
or dusting vines with poisons. For
spraying arsenate of lead and paris
green are mixed with bordeaux mixture
and applied whenever the beetles
appear. Dusting paris green in flour
or lime over the vines will also kill off
the insects.

Bordeaux mixture, made of four
pounds of copper sulphate, four pounds
of quicklime and fifty gallons of water,
is used by potato growers to ward off
fungal diseases. If paris green is
added to this material it will kill the
bugs within a day, and when arsenate
of lead is also mixed in the poison is
effective often for several weeks after
applied to potato vines. The Ohio agri-
cultural experiment station advises
the use of these compounds soon after
potatoes come up and again about two
weeks later. Sometimes a third applica-
tion ten days to two weeks after the
second is necessary. Early in Septem-
ber the second brood of beetles ap-
pears, and the treatment must be re-
peated then and about two weeks later.
On young vines fifty gallons will be
sufficient to spray an acre, but when
the vines are large two or three times
this amount is necessary.

Specialists at the experiment station
also recommend dusting paris green
diluted by bulk with twenty parts of
finely ground lime and shaken from
cheesecloth bags or blown from a suit-
able powder gun over the foliage. The
powder is dusted on the plants accord-
ing to the schedule for spraying.

Clean Milk.

The length of time milk will remain
sweet after being taken from the cow
depends almost altogether upon two
factors—first, the care exercised in
keeping the milk clean and, second,
the temperature at which the milk is
kept. Under careful management in
keeping clean the parts of the machine,
etc., it is possible to milk cows with a
milking machine so that the milk is
fully as clean as when cows are milked
by hand. If the machine is kept in
first class condition and if all practical
precautions are taken against
contamination during milking, there is
no reason to believe milk will not keep
sweet for a good length of time pro-
vided, of course, that it is kept in clean
utensils, cooled down and kept cool
following milking.—Hoard's Dairymen.

Lime-Sulphur For Fungus.

The self boiled lime-sulphur is one
of the simplest and cheapest of sprays
and is good for all fungous diseases on
fruit, such as rot, leaf curl, mildew
and also for soft boiled, sucking
insects, such as the aphid, that is found
on the cherry and plum. Eight pounds
of lime slaked with eight pounds of
sulphur and then diluted to fifty gallons
of water is the formula. It is
suggested that these sprays be made
fresh each time one is going to use
them, as their strength will be found
to be better.

Prepare Meat For Home.

Enough pork and beef should be
butchered and packed on every farm
next fall to supply the family for
eight months.

A Neatly
Engraved
Visiting Card

Is THE proper thing
for a lady or gentle-
man to present nowa-
days, when making
calls.

or more.

CENTRAL RECORD

Here are the Results of the Sworn--to Demonstrations of Franklin Thrift as Tested out all over the United States.

LAST FRIDAY, Franklin dealers everywhere were doing the same thing—measuring Franklin thrift by mileage on a single gallon of commercial gasoline. Our own record was 41.7 miles per gallon.

Yesterday we got a telegram from the Franklin factory, announcing the Grand National Average, confirmed by affidavits of prominent men in all localities where the tests were made.

In New Haven, Connecticut, a stock Franklin covered 82.8 miles
on a single gallon of gasoline. That was the highest mileage.

The lowest was recorded from Glens Falls New York, where a
stock Franklin made 18 miles on a single gallon.

40.3 miles on a single gallon—the average

of 179 stock Franklin cars, the ENTIRE number
participating in this nation-wide demonstration.

Here you have the Franklin
standard of thrift.

Think of the roads, the climate,
the weather, all of these cars ex-
perienced! Then, think of the
significance of such a nation-wide
test.

It means, as a car for thrift, the
Franklin stands alone among all
fine automobiles.

Only a fine car can show such
results.

What's Back of It All

Only by the elimination of 177
heavy and troublesome water-cooling
parts and complicated mech-
anism everywhere, can gasoline-
consuming friction and drag wear
and tear, be minimized.

Only scientific light-weight con-
struction and fine materials, fight

ly distributed, allow a car to put a
stop to fuel waste.

More Than Miles
Per Gallon.

This easy running of the Frank-
lin means efficiency—waste cut-
ting—all along the line.

Take tires—Franklin owners re-
port an average of over 10,000 miles
in a five-year period. Easy, buoy-
ant, gasoline-saving operation is re-
sponsible for this record.

Depreciation—Find a used
Franklin for sale. Compare the
Franklin re-sale price with the
prices other fine used-cars bring,
in proportion to their first cost. If
gasoline is lasting, the car is long
lived. The same wearing drag that
boosts the gasoline bill also boosts
the repair bill.

Whenever you come to the conclusion that the next automobile you buy should
deliver a dollar's worth of efficiency for every dollar you invest, then you are ready to
investigate the Franklin.

Franklin Motor Car Co.

(Incorporated)

250 East Main Street.

Lexington, Ky.

Phone 3619.

Spoken in Haste.

Collector—"But you said you would
pay me if I came today." Mr. Biddle
"Well, my friend, you know how it
is—the best of us sometimes say
things that we are sorry for."

Color Photography.

To further color photography a New
York man has invented a camera in
which two plates are exposed at once,
a perforated mirror that permits light
to reach one plate reflecting it also to
the other.

Uncalled for Action.

Mary was visiting in the country
and had been stung by a bee. She
didn't seem to mind the pain so much,
but she had a sensitive disposition.
She ran sobbing to her mother and
said, "I don't see what he did for it,
'cause I hadn't done a thing to him."

The Helping Hand.

"He who makes of himself an uplift-
ing force for others will himself be
lifted up; he who helps others on the
downward path cannot ascend. The
man who is always ready to give his
help to a fellow man is a poor climber.
The man whose hand is always a helping hand finds helping
hands everywhere reaching down to
give him a pull upward."

Man's Fear of Death.

That which we term the fear of
